Cat condos for a large cat?

I have a Siberian cat who's naturally a big kitty. (Not fat, just big) He loves cat condos, but can't fit inside them. So does any one know of a place that sells cat condos for larger cats?

They have every size of cat condo and are very high quality at great prices. My son and I put ours together in 10 minutes with the included tool and it's withstood 3 kittens and 3 11 pound adults.
