**Do you know where I can find free
blueprints for building cat condos and
furniture online?**

Instead of paying \$200 for the cat furniture sold in pet stores, I want to build some myself. I have looked online for blueprints, but so far the only one I've found is: <http://feline-furniture.tripod.com/#diy>. This one is nice, but I want more options.

Ideally, I would like to build a three tiered cat furniture, about 5'5". I need detailed blueprints like the ones in the link above, and I don't want to have to order any book online. However, I would like a variety of styles to choose from, so I can pick out the one that will best fit in my home and I can build well.

Thanks for all your help!

Here are some links,...

But it may cost you more to make them.
